

# LAND O LAKES® Electrolyte System

Provides nutritional support for calves

- ✓ Helps address dehydration and assists with optimal intake
- ✓ Supports calves experiencing heat stress
- ✓ Provides nutritional support during health challenges

Includes two products: Electrolyte Base (25-lb. bag) and Electrolyte Add Pack (3-lb. container).

## LAND O LAKES® Electrolyte Base

Can be fed as an early intervention:

- Before transportation
- Upon arrival as part of a receiving protocol
- When calves are undergoing heat stress
- At the first signs of scours (scour score 2) when no other signs of dehydration are visible

Features	Benefits
High dextrose	Provides quick energy
Vitamin B complex	Supports intake
Zinc	Supports immune function and tissue health

## LAND O LAKES® Electrolyte Add Pack

Can be added to LAND O LAKES® Electrolyte Base:

- At the first visible signs of dehydration, such as sunken eyes, pale gums, tented skin, mild depression or weakness
- When calves have more severe scours (scour score 2+ to 3)

Features	Benefits
Glycine	Assists with electrolyte transportation
Sodium acetate	Supports optimal pH balance and hydration
Malic acid	Helps reduce the potential for excess D lactic acid <sup>1</sup>

### Feeding considerations:

#### LAND O LAKES® Electrolyte Base:

-  Provide in between milk feedings. Do not mix LAND O LAKES® Electrolyte Base with milk or milk replacer. Solution is yellow color for easy identification.
-  Feed 2 quarts of LAND O LAKES® Electrolyte Base up to two times per day. If using for heat stress, mix a more dilute solution (according to directions) and provide free choice.
-  Always provide fresh, clean water beginning on day two.

#### LAND O LAKES® Electrolyte Add Pack:

-  Do not feed alone. Always feed LAND O LAKES® Electrolyte Add Pack with LAND O LAKES® Electrolyte Base. Solution is orange color for easy identification.
-  Feed 2 quarts of LAND O LAKES® Electrolyte Base with LAND O LAKES® Electrolyte Add Pack up to 2-4 times per day as needed.
-  Always provide fresh, clean water beginning on day two.

<sup>1</sup>Always follow label directions.

Let's talk about a calf program to meet your farm goals.
